

Saving to Your Homescreen

fisheryfacts.com/mobileMD

For most **Android** users: Use Chrome to open the FACTS mobile website and you'll see three vertical dots in the web address line. Touch the dots and a menu will open that allows you to choose "Add to Home Screen".

For most **iPhone** users: Use Safari to open the FACTS mobile website and you'll see the Share button (box with arrow pointing up) appear as an option on the screen. Tap the Share button and a menu will open that allows you to choose "Add to Home Screen"
